SUMMARY

I am Kanigelpula Vishnu, a Final-year student passionate about software development and AI/ML, seeking opportunities to begin my professional career. I have hands-on experience in **Python, Machine Learning, RAG, and full-stack development**, with projects including a **Stock Market Prediction Dashboard** built using Flask, JavaScript, HTML, CSS, and Machine Learning, and an **AI-powered Knowledge Retrieval Platform With Query Resolution System** using LangChain, ChromaDB, and LangGraph for intelligent document-based query resolution. I also completed an **internship at Infosys**, where I gained practical exposure to software development and industry-oriented technologies. Driven by a strong desire to learn and grow, I aim to apply my problem-solving and technical skills to build impactful solutions and contribute effectively to a team.

EDUCATION

Intermediat 2021 – 2023
Saraswati junior college Ongole,India
MPC

SSC 2021
Narayana High School Ongole,India

Bachelor of Technology 2023 – 2027
RISE Krishna Sai Prakasam Group Of Institutions Ongole,India
CSE(Computer Science and Engineering)

SKILLS

Programming Skills
Python, C

Web Development
HTML, CSS, Java Script, Flask, Django

AI / Machine Learning
RAG, LangChain, LangGraph, Embeddings

Data Base Skills
MySQL,ChromaDB

Strengths
Problem-solving, Time Management, Decision Making, Continuous Learning, Critical Thinking

PROJECTS

AI Knowledge Retrieval & Query Resolution Platform With Query Resolution System
- Architected an end-to-end RAG system using **LangChain**, **RAG**,**FastAPI**, and **ChromaDB** to parse multi-format documents and deliver precise, context-aware answers to user queries.

Stock Chart AI
- Engineered a web application leveraging **TensorFlow** and **OpenCV** to automate stock chart pattern analysis and deliver real-time trading recommendations upon image upload.

PROFESSIONAL EXPERIENCE

Intern 06/2026 – 09/2026
Infosys
- Engineered a multi-agent RAG system using **LangGraph**,**LangChain**, and **ChromaDB** to automate document parsing, retrieval, and intelligent query resolution.
- Developed a full-stack **FastAPI** and **React** application supporting voice/text queries, source citations, confidence scoring, and dynamic conversation memory.

CERTIFICATES

- IBM Machine Learning with Python
- Infosys Artificial Intelligence
